

Pharmacy Cost Worksheet

This Pharmacy Cost Worksheet can help you determine prescription drug costs for you and your covered dependents. Review the list of most frequently prescribed medications to find the prescriptions you and your covered dependents use, then fill in the cost information on this worksheet.

To help you determine the costs that you should enter, keep the following in mind:

- If your pharmacy plan includes a deductible (the amount you need to pay each year before your plan starts paying benefits), then the costs estimated here will apply to your CIGNA Choice Fund amount until your deductible is met. Your pharmacy plan should provide coverage after you meet your deductible. You will then be responsible for the copayment and/or coinsurance amounts.
- If your pharmacy plan does not include a deductible, you do not need to apply the pharmacy costs to your CIGNA Choice Fund. You should be responsible only for your copayment and/or coinsurance amounts. You should estimate the copayment and/or coinsurance amounts that will be applied to your fund.

Refer to your Summary of Benefits for your pharmacy plan coverage.

Drug Name	# of refills	Cost of prescription or copayment/coinsurance amount	Total estimated cost
Pharmacy Cost Subtotal			

Frequently Prescribed Medications

Prescription drugs are organized by class of medication and by generic and brand name equivalent. One occurrence equals one prescription. Most costs represent a 30-day supply unless otherwise noted.

Drug costs are based on the CIGNA HealthCare discounted national average price. The following pricing information is subject to change.

Allergy Treatment

Generic Drug

Promethazine 25 mg Tablet	\$11
Hydroxyzine Hcl 25 mg Tablet	\$15

Brand Drug

Zyrtec 10 mg Tablet	\$78
Allegra 180 mg Tablet	\$84
Clarinet 5 mg Tablet	\$110
Astelin 137 mcg Nasal Spray*	\$85

Antibiotics

Generic Drug 10-Day Supply

Acyclovir 400 mg Tablet	\$9
