

CIP Worksheet for 2021 Budget Exercise for the years 2021 thru 2025

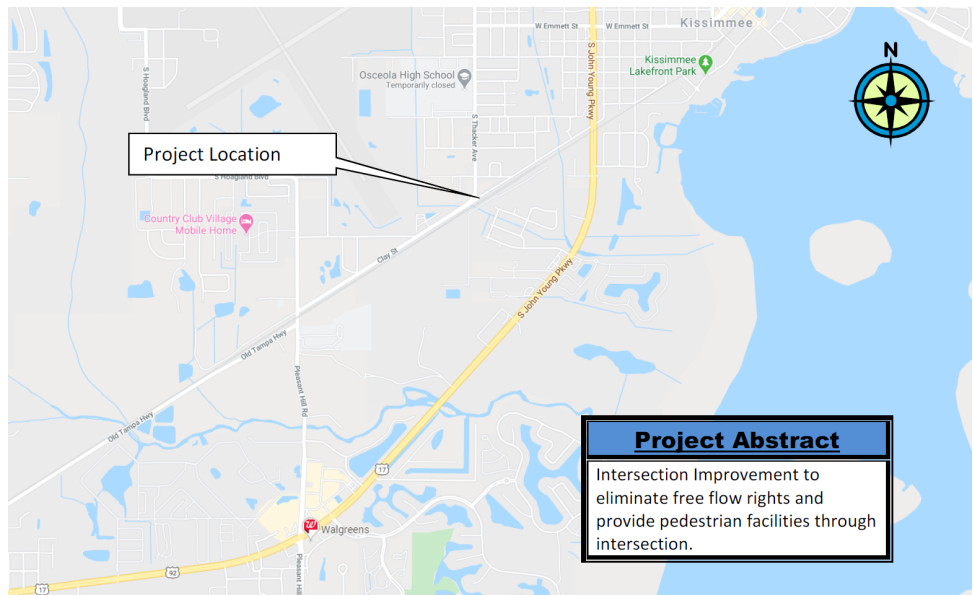

Clay Street at Thacker Avenue Intersection Improvements

Office: Transportation
Asset Type: Transportation - Signals

Project Manager: Kathy Lee
Phone Number: 407-742-0553

Project Background Information:

Start Date for Design: 1/1/2021
Costing Center: 4300 -
Transportation Projects District(s): 1
and 4
Zone(s):

Requirements:

CIE: No
Priority: 0

Project Scope:

The purpose of the project is to eliminate the free-flow right turns onto and off of Thacker Ave and to provide pedestrian facilities through the intersection.

Description:

This Project is in northern Osceola County, in the City of Kissimmee. This project will remove the existing channelizing island and the southbound free-flow right turn lane. Additionally, the auxiliary lane along Clay Street will be removed to allow for construction of a 5-ft wide sidewalk on the north side of Clay Street, approximately 615-ft west of the intersection. Curb ramps and crosswalks will also be provided to channelize and emphasize pedestrian flow through the intersection.
